

WHY DO YOU NEED HOME SECURITY?

Data suggests that a home security system is worth the investment above and beyond the peace of mind factor. Security yard signs deter burglars, sirens reduce the amount of time a burglar spends at your home, and the chances of identifying the perpetrator increase significantly when you have cameras. Check out the stats:

A burglary occurs about once every 15 seconds.

The average loss per burglary in the United States is \$2,230.

Homes without a security system are about 300% more likely to be burglarized.

It's estimated that only 72.4% of burglaries are reported to the police.

In 2014 there were an estimated 1,729,806 burglaries.

**Home security isn't expensive.
It's priceless!**
